How to Safely Dispose of Pet Waste

**City of Woburn

Pet Waste Pollutes our Watersheds!

Dog waste left on the street or lawn, or dropped directly into a catch basin does not just go away or fertilize the grass. The bacteria in dog waste can be washed down catch basins and eventually into our streams, rivers, ponds and lakes.

Cat litter dumped outside can also be washed into streams. The bacteria in pet waste can make it unsafe to fish or swim in our waters.

Dog waste bags dropped in a catch basin are washed out of the outfall pipe during

a storm, and can eventually make their way to our rivers, streams, ponds and lakes.

All storm drains in Woburn drain to Horn Pond or the Aberjona River!
